

## Affiliate link setup

1. Go to the affiliate website at <http://www.trelg.com/idevaffiliate/>
2. Click the “Signup” button or link
3. Choose a username and password, and provide the contact information requested
4. Click the “Create My Account” button
5. Click the “Login to your Account” link
6. In the upper right hand corner is a box labeled “Standard Linking Code”. This contains a special link to our website that will allow us to track visitors you send us. You can copy and paste this link into an email or onto your website.
7. On the left hand side of the page, click the “Banners” link. Then, click the “Display Banners” button on the right hand side of the page. This will reveal a number of logo banners you can use on your website or in emails.

### To use a logo banner on your website

- a. If your website is maintained by someone else, copy the contents of the box labeled “Source Code” and paste this code into an email to your webmaster.
- b. If you maintain your own website, you may simply copy the contents of the box labeled “Source Code” and paste into your HTML editor.

### To use a logo banner in an email (Outlook)

- a. Right click on the picture of the banner you want, and choose “Copy”.
  - b. Create a new email message, right-click in the body of the message and choose “Paste”. The logo banner will appear
  - c. Switch back to your web browser, select the contents of the box labeled “Standard Linking Code”, right-click and choose “Copy”.
  - d. Switch back to the email message, right-click on the logo banner, and choose “Hyperlink...”. In the “Address” field, right-click and choose “Paste”. Click OK.
8. On the left hand side of the page, click the “Text ads” link. Then, click the “Display Text Ads” button on the right hand side of the page. This will reveal text ad(s) that you can use on your website.

### To use a text ad on your website

- a. If your website is maintained by someone else, copy the contents of the box labeled “Source Code” and paste this code into an email to your webmaster.
- b. If you maintain your own website, you may simply copy the contents of the box labeled “Source Code” and paste into your HTML editor.

## Print Ads

Copy the “Standard Linking Code” that looks like **<http://www.trelg.com/xxx.html>** from the text ad page so the students can type it into their internet browser and register on-line.
